

# YELLOW BELTS & ABOVE SPARRING EQUIPMENT

Part of your advancement in Self-Defense training as a Yellow Belt will include Sparring. Sparring is an opportunity to use your Self-Defense techniques in a controlled environment. In any real life scenario, danger may be just around the corner. By participating in the Sparring, you train not only your body but prepare your mind. Sparring helps prepare you in the event that you may have to defend yourself.

In order to keep sparring in a Safe and Controlled environment, AIM REQUIRES all students to wear protective gear. This gear consists of the Sparring Package, Mouth Piece & Groin Protection. Additional protection items that are not required at this level include protective Headgear and the Sparring Vest.
