

Essay for the Hailey Green Scholarship:

As part of the application process, we would like to know about you. Please have the applicant (or their parent if they are too young) fill out this portion. We would also like to have a picture of our applicant. If the applicant is very young and the parent is filling out this portion, please have them draw a picture representing something about themselves.

My name is _____ and I am _____ years old.

This scholarship is very important to me because

The thing I most love about cheerleading, dance, or self-defense is

In the future I would like to do and be

Please attach a picture of the applicant to the top of this page

Here's a self-portrait of me doing something fun:

About Hailey Green

Hailey Danielle Green, former AIM cheerleader and assistant coach, was taken from all those who loved her on July 31, 2019 at the age of 18. She was a caring, nurturing, and compassionate person that poured into her passions. Hailey would go the extra mile for anyone because she had such a loving heart and it truly didn't matter what walk of life someone came from. She was an amazing daughter, loving granddaughter, a wonderful Aunt, and a friend to many.

Hailey enjoyed being a part of AIM cheer for 7 years, an assistant coach with Coach Mary (aka coach T) for 2 years, athletic training, teaching early head start, and had a passion for working with kids. Hailey loved Mexican food, her dog Cody, anything medical related, and teaching/coaching children.

Once in High School, Hailey attended Valley Career & Technical Center and acquired her CNA as a junior. She was a member of HOSA where she competed in State & Nationals placing 2nd in the state for nursing & top 3% in the nation. Hailey was also a member of the National Honor Society & National Technical Society. She also took part in many mission trips and did lots of community service to provide a helping hand to those in need.

Hailey was preparing to attend EMU starting in August 2019 to be a part of their Nursing program. She had planned to specialize in Pediatrics and continue to be involved in Athletic training.
